

SANAD II

A pragmatic randomised controlled trial comparing the effectiveness and cost-effectiveness of levitracetam and zonisamide versus standard treatments for epilepsy: a comparison of Standard And New Antiepileptic Drugs (SANAD-II)

TRIAL RECRUITMENT

NEWS

- We will have a stand at the upcoming [ABN Annual Meeting](#) in Cardiff on the 7th-9th of May. Come along if you have any questions or would like to talk to us.
- We are currently preparing to submit the **next Substantial Amendment** to the protocol. The main changes here are the expansion of the inclusion criteria to allow enrolment of incapacitated adults and the addition of new sites.
- Get in touch with us if anyone from your site needs to attend an **initiation webinar**. We are booking in new dates all the time, and in the near future hope to have the dates available on our website.
- We are still **open to new sites**. Get in touch with the trial office, if you want to take part.

SITES OPENED IN JAN/FEB*

Site	Service	PI
James Cook University Hospital	Adult/Paed	Dr Nikolas Hitris
Stepping Hill Hospital	Paed	Dr Erica Houston

REMINDERS

- ✓ Please remind patients in clinic that there will be questionnaires to fill in at home, and that they should be completing these as soon as possible.
- ✓ When posting documents from the baseline visit, the consent form should be in one envelope, the contact form (CRF 2) in another envelope, all other forms in another envelope. Please do not post medical data with patient identifiable information!
- ✓ Please do not fax consent forms, post only.
- ✓ Please do not enclose CRF form 8 with the safe box and DNA sample. Form 8 should be posted to the trial office, the DNA sample should be posted to Laurence McEvoy at the Wolfson Centre for Personalised Medicine (safe boxes have been pre-addressed).
