

SANAD II

Trial Newsletter August and September 2013

A clinical trial comparing the effectiveness and cost-effectiveness of levetiracetam and zonisamide versus standard treatments for epilepsy: a comparison of **Standard And New Antiepileptic Drugs (SANAD II)**

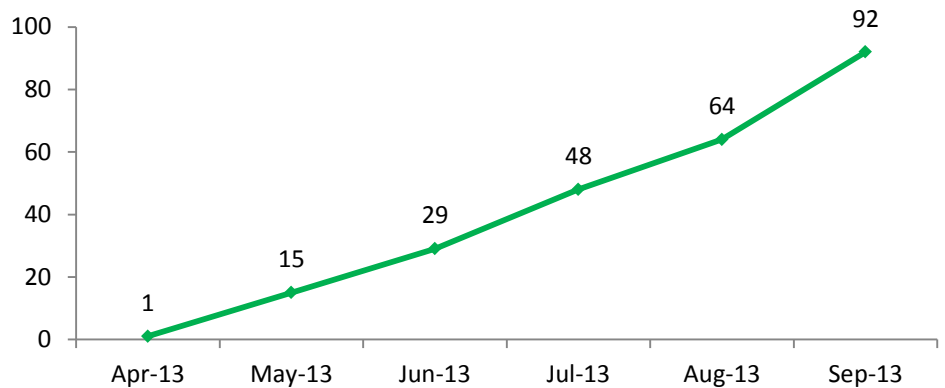

Latest News

Chief Investigator Prof Tony Marson presented at the International League Against Epilepsy (ILAE) conference, in Glasgow, with an update on SANAD II. The presentation was accompanied by a stand and poster, encouraging more researchers to get involved with the trial.

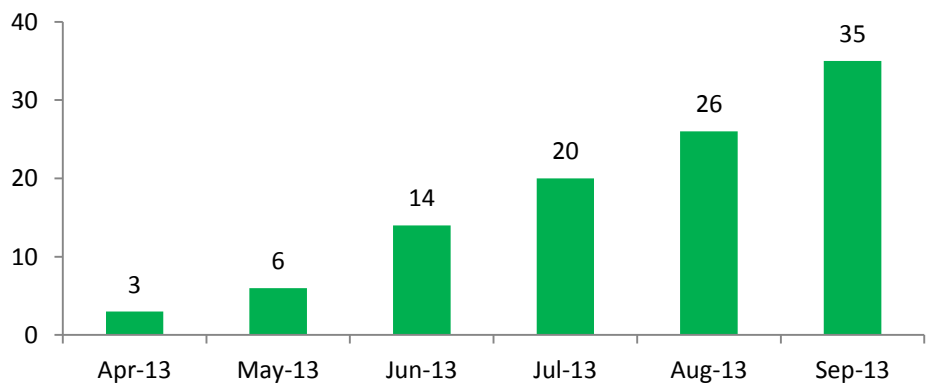

Recruitment So Far

Recruitment to the trial picked up a steady pace throughout August and September, with the **35** sites being open, taking the total for the end of September to **92** participants randomised. The graphs below show the cumulative progress of the trial since April 2013.
